UKHONA PAY

Financial identity for taxi-rank traders

EDHE ABSA STUDENTPRENEURS INDABA

Challenge 3 — Digitization & Financial Identity

THE PROBLEM

R100,000 changes hands in cash every day at one taxi rank. None of it is recorded.

Taxi drivers and street vendors earn real, reliable daily income entirely in cash. When they want to buy a taxi or grow their stall, banks say no — no income proof, no credit history.

50–100	10–15	500+	R2.7m	Unrecorded
drivers per rank	vendors per rank	commuters daily	cash per rank per year	

THE SOLUTION

One platform, three roles.

Every transaction becomes proof of income.

Ukhona Pay turns every fare/sale into a QR-code payment, recorded automatically into an immutable ledger. After 90 days of consistent activity, that ledger becomes a Financial Identity Score banks can assess. Taxi associations approve drivers and collect dues digitally.

Taxi Driver

Every fare lands straight in the driver's wallet, timestamped and permanent.

Financial Identity Score

16 /100

Building identity

Days recorded	8 / 90
Consistency	26.7%
Verified income	R1410.00

The same live scoring engine — early stage account.

IMPACT — AFTER 90 DAYS

2,520 transactions	R12,600 recorded income
72/100 Financial Score	R15,000 – R20,000 eligible for a loan
91% consistency	

Mbombela alone has 20+ major taxi ranks.
The model replicates directly to every one, and beyond.
